

CALL FOR PAPERS

5th International Workshop on Security and Trust Management (STM 2009)

Saint Malo, France – September 24-25, 2009

STM (Security and Trust Management) is a established working group of ERCIM (European Research Consortium in Informatics and Mathematics). STM 2009 is the fifth workshop in this series and will be held in Saint Malo, France, in conjunction with ESORICS 2009 (14th European Symposium on Research in Computer Security). STM has the following aims:

- to investigate the foundations and applications of security and trust in ICT;
- to study the deep interplay between trust management and common security issues such as confidentiality, integrity, and availability;
- to identify and promote new areas of research connected with security management (e.g. dynamic and mobile coalition management, P2P, MANETs, Web/GRID services);
- to identify and promote new areas of research connected with trust management (e.g., reputation, recommendation, and collaboration);
- to provide a platform for presenting and discussing emerging ideas and trends.

Topics of interest include, but are not limited to:

access control	reputation systems and architectures
cryptography	security and trust management architectures
data protection	semantics and computational models for security and trust
digital right management	trust assessment and negotiation
economics of security and privacy	trust in mobile code
key management	trust in pervasive environments
ICT for securing digital as well as physical assets	trust models
identity management	trust management policies
networked systems security	trusted platforms and trustworthy systems
privacy and anonymity	trustworthy user devices

The primary focus is on high-quality original unpublished research, case studies, and implementation experiences. We encourage submissions discussing the application and deployment of security technologies in practice.

Paper submissions. Submitted papers must not substantially overlap papers that have been published or that are simultaneously submitted to a journal or a conference with proceedings. Papers should be at most **12** pages in ENTCS style format (using the generic template), including the bibliography and well-marked appendices. Committee members are not required to read the appendices, and so the paper should be intelligible without them. Submissions are to be made to the submission web site (<http://www.easychair.org/conferences/?conf=stm09>). Only pdf files will be accepted. Submissions not meeting these guidelines risk rejection without consideration of their merits. Papers must be received by the deadline of **June 23, 2009**. Authors of accepted papers must guarantee that their papers will be presented at the workshop. Accepted papers will be published in a post-workshop ENTCS volume.

General Chair

Christian Jensen
Technical University of Denmark, Denmark
www2.imm.dtu.dk/~cdj/

Program Chairs

Sabrina De Capitani di Vimercati *Ralf Küsters*
University of Milan, Italy

Piblication Chair

Claudio A. Ardagna
University of Milan, Italy

Publicity Chair

Eros Pedrini
University of Milan, Italy

Important dates

Paper Submission due: **June 23, 2009**
Notification to authors: **July 27, 2009**
Camera ready due: **August 17, 2009**

Program Committee

Mikhail Atallah, Purdue University, USA
Vijay Atluri, Rutgers University, USA
Karthik Bhargavan, Microsoft Research laboratory, UK
Iliano Cervesato, Carnegie Mellon University, Qatar
Cas Cremers, ETH Zurich, Switzerland
Theo Dimitrakos, BT, UK
Simone Fischer-Huebner, Karlstad University, Sweden
Sara Foresti, Università degli Studi di Milano, Italy
Michael Huth, Imperial College London, UK
Sushil Jajodia, George Mason University, USA
Peng Liu, Pennsylvania State University, USA
Javier Lopez, University of Malaga, Spain
Volkmar Lotz, SAP Research, France
Sjouke Mauw, University of Luxembourg, Luxembourg
Fabio Martinelli, CNR, Italy

Carlos Maziero, PUCPR, Brasil
Catherine Meadows, NRL, USA
John Mitchell, Stanford University, USA
Chris Mitchell, Royal Holloway, University of London, UK
Olivier Pereira, UCL, Belgium
Peter Ryan, University of Luxembourg, Luxembourg
Mark Ryan, University of Birmingham, UK
Michael Rusinowitch, INRIA, France
Pierangela Samarati, Università degli Studi di Milano, Italy
Damien Sauweron, XLIM, University of Limoges, France
Joerg Schwenk, Ruhr-Universität Bochum, Germany
Ron van der Meyden, University of New South Wales, Australia
Luca Viganò, Università di Verona, Italy
Bogdan Warinschi, University of Bristol, UK
